

Career Roadmaps Case Study - Dr. Wisethorn Academy

Introduction

At Dr. Wisethorn Academy, we believe no individual is beyond the reach of success. Our career-focused education model is designed to take learners from a place of uncertainty to a position of professional empowerment. This case study highlights how personalized roadmaps and hands-on mentorship have transformed lives.

Career Roadmap Model

1. Discovery Phase (0-1 Month): Self-assessment workshops, career counseling sessions, identifying strengths, interests & gaps.
2. Foundation Phase (1-3 Months): Core IT fundamentals (networking, OS, databases), soft skills, learning environment familiarization.
3. Specialization Phase (4-6 Months): Tracks in Cybersecurity, Cloud Security, DevSecOps, QA Automation with real-world labs and simulations.
4. Certification & Job Prep (6-8 Months): Industry certifications, resume building, mentorship.
5. Placement & Growth Phase (9-12 Months): Job support, alumni networking, continued mentorship.

Case Study 1: From College Dropout to Cloud Engineer

Rachel J., a former college dropout with no tech background, enrolled in the Cloud Security Track. She earned AWS certifications, completed migration labs, and is now a Cloud Engineer at a private defense contractor.

Quote: "Dr. Wisethorn Academy didn't just train me-they believed in me when I didn't believe in myself."

Case Study 2: Veteran to Cybersecurity Analyst

Career Roadmaps Case Study - Dr. Wisethorn Academy

David R., a U.S. Army Veteran with no prior IT experience, began with fundamentals and Security+ training. Mentored by a retired NSA analyst, he is now a SOC Analyst at a federal agency.

Quote: "This roadmap gave me structure. I traded confusion for confidence-and a new mission."
